***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: the abstract has been replaced with a new abstract in which the words "said" has been changed to the words "the". In addition, the new abstract also does not contain label "Fig. 2" at the end.

***Allowable Subject Matter***

2. Claims 1-6 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

**Whinnett (US 5,999,826)**, teaches a method and system for timing a change of diversity weights in a radio connection between a base station and a terminal, comprising the step of receiving an initiation from the terminal and set diversity weights based on an acknowledgement or non-acknowledgement feedback from the terminal.

**Bruckert (US 5751,763)**, teaches a method and system for determining a transmission time of a next power-control bit based on a round trip delay between the base and the terminal.

**Golden, et al (US 5,887,037)**, teaches a method and system for providing a processed signal and a delay circuit that introduce a predetermined delay to the processed signal within a time slot.

**Dybdal, et al (US 5,781,845)**, teaches a method and system to adaptively control the characteristics of a transmitting antenna in response to the environment surrounding the antenna so that the transmitted signal is not degraded or corrupted by reflected and delayed transmitted signals.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest selecting a response timing mode from a number of predefined response timing modes and informing the terminal about a selected response timing mode.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lee T. Khuong whose telephone number is (703) 305-4899.
